

MVS45L X

TROLLEY VACUUM - SEALING BAR 450 MM
VACUUM MACHINE WITH CARRIAGE

DESCRIPTION

Maximum simplicity of setting and use, in front of the availability of many technological content and functions of high quality. These are the main features of **MVS X chamber vacuum sealers**, made with the help of professional chefs who have been able to enrich the equipment with new functions of the latest generation, cut out on the specific needs of professional operators.

These **vacuum packaging machines** allow to operate up to 10 different programs, customised to the main packaging requirements. The control panel with tactile controls is hermetically sealed on the front of the bodywork, so as to prevent any fluid filtration on the board.

Other features include:

- Special message that warns of the need for oil change
- Electronic sensor which, importing data directly from the card, is able to calculate the vacuum realized

in the Chamber

- Possibility of setting the machine to the vacuum on the atmospheric pressure conditions at the different altitudes
